London, 30 — The Times says: Ayoob Khan's victory will have the effect of brieging him forward as an active participator in the guidance of events in Eastern Afghanistan, and in the future settlement of country. His role will necessarily be an important one.

A Bombay dispatch says the first train to the frontier, consisting of four regiments of infantry and two of cavalry, was on the point of starting on Thursday night.

Information received by the Indian government shows that the military strength of Ayoob Khan has been utterly underrated.

### More of Grant's Talk,

Chicago, 30.—Governor Smith, of Wisconsin, has just returned from an extended tour in California, Oregon, Nevada and Utah, during which time be was three days wite Gen. Grant. He says, in an interview, that he found Grant enriest in his republicanism, and absolutely confident of the success of Garfield. All talk about his being "sore" or lukewarm is faire. He reports Garfield as one of the formost extension of the country, and is convinced that the business interests of the country demand the election of the republican ticket. Of Hancock be says he believed he is and always was toyal, and said as much could not be said of all generals who were intrusted with important commands under him in the army of Potomae. In Hancock, however, he never discovered the circuit traces of disovalty, eitner to the cock, however, he never discovered the faintest trace of disloyalty, either to the commander or the country.
